SAFETY DATA SHEET FAB Titanium G5

This Safety Data Sheet has been written in compliance with EC Regulation No. 1907/2006 (REACH) as amended by Regulation (EU) 2020/878.

Revision 2
Revision date:
15/01/2024

Rev.	Date	Reason of the revision	Prepared by DTEC	Checked and approved by DG
0	24/09/2019	Emission	<i>Sala Lorenzo</i>	<i>Sala Giacomo</i>
1	01/09/2020	Manufacturer update par 3.1	<i>Sala Lorenzo</i>	<i>Sala Giacomo</i>
<u>2</u>	<u>15/01/2024</u>	<u>Updating according to EC Regulation No. 1907/2006 (REACH) as amended by Regulation (EU) 2020/878 and MDR 2017/745</u>	<u><i>Sala Lorenzo</i></u> <i>Sala Lorenzo</i>	<u><i>Sala Giacomo</i></u> <i>Sala Giacomo</i>

2. HAZARDS IDENTIFICATION	
2.1. Classification of the substance or mixture	<p>This product does not meet the criteria for classification as hazardous under Titles I and II of EC Regulation No. 1272/2008 on classification, labelling and packaging of substances and mixtures.</p> <p>The products referred to in this sheet are in the form of solid metallic bond. When used under normal conditions and in accordance with the intended use, they are generally not considered hazardous to humans or the environment.</p> <p><u>Medical devices according to MDR 2017/745 in their final state are exempted from the CLP legislation.</u></p>
2.2. Label elements	None, in compliance with EC Regulation No. 1272/2008 (CLP), as amended.
2.3. Other hazards	<p>vPvB substances: none</p> <p>PBT substances: none</p>

3. COMPOSITION/INFORMATION ON INGREDIENTS				
3.1. Substances				
N/A				
3.2. Mixtures				
Non-ferrous metal-based alloy. Titanium-based alloy.				
Non-hazardous substances according to EC Regulation No.1272/08, as amended.				
Name	IUPAC name	Product identifiers	%m/m	Classification
Ti	Titanium	CAS 7440-32-6 EC 231-142-3	90	H228 flam sol
Al	Aluminium	CAS 7429-90-5 EC 231-072-3	6	H228 flam sol H261 water-react
V	Vanadium	CAS 7440-62-2 EC 231-171-1	4	None

4. FIRST-AID MEASURES		
4.1. Description of first-aid measures		
Inhalation	Immediate medical attention	Not necessary

	First-aid measures	Movement of the exposed individual from the area to fresh air is recommended. In case of respiratory arrest, perform artificial respiration and consult a doctor.
	Specific rescue tools	None
Skin contact	Immediate medical attention	Not necessary
	First-aid measures	Wash contaminated skin promptly with soap and water, or with a mild detergent. Remove wet clothing immediately and wash the skin with water. Remove the contaminated clothing and wash it thoroughly before reusing it.
	Specific rescue tools	None
Contact with the eyes	Immediate medical attention	Consult a doctor in case of persistent irritation.
	First-aid measures	Rinse immediately with plenty of water for not more than 15 minutes. Remove any contact lenses and open the eyes widely. If eye irritation persists, contact a doctor.
	Specific rescue tools	None
Ingestion	Immediate medical attention	Not necessary
	First-aid measures	Rinse mouth with water. Consult a doctor. Do not administer any beverage to the patient if unconscious.
	Specific rescue tools	None
4.2. Most important symptoms and effects, both acute and delayed		
None		
4.3. Indication of any immediate medical attention and special treatment needed		
No further relevant information available.		

5. FIREFIGHTING MEASURES	
5.1. Suitable extinguishing media	Non-flammable due to the form in which they are supplied. Use fire-fighting means appropriate to the environment. At the contrary, if the material is fine divided (powder) it could explode at open air. Use fire-fighting measures that suit the environment.
5.2. Special hazards arising from the substance or mixture	None
5.3. Advice for firefighters	In addition to normal fire-fighting equipment, use respiratory protection, i.e., self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES	
Avoid the formation of dust. Ensure adequate ventilation. Do not inhale vapours.	
6.1. Personal precautions, protective equipment and emergency procedures	Avoid contact with eyes, skin or clothing. Avoid generating excessive dust. Do not disperse into the environment.
6.2. Environmental precautions	Do not discharge into drains, waterways or soil.
6.3. Methods and material for containment and cleaning up	Recover the product and store it in a container suitable for reuse. Avoid the formation of dust.
6.4. References to other sections	Refer to sections 8 and 13.

7. HANDLING AND STORAGE	
7.1. Precautions for safe handling	Avoid contact with eyes, skin and clothing. Avoid generating and breathing dust. Wear protective clothing and equipment as outlined in Section 8. Use only with adequate ventilation. Do not eat, drink or smoke in the workplace. Wash contaminated clothing before use. After handling the product, wash thoroughly with soap and water. Dust can form an explosive mixture with air. Minimize dust generation and accumulation. Keep dust away from open flames, hot surfaces and other sources of ignition. Follow good cleaning practices to keep surfaces (including surrounding areas, e.g., pipes, ducts and false ceilings) free of dust. Provide adequate precautions such as a connection and grounding, or inert atmospheres. Product residue is still present in empty containers. Observe all safety measures outlined in this MSDS regarding empty container management.
7.2. Conditions for safe storage, including any incompatibilities	Store in its original packaging, tightly closed, in a cool, dry place.
7.3. Specific end uses	There are no special uses outside of those listed in par. 1.2.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION					
8.1. Control	CAS No.	Name	TLV - TWA	TLV - STEL	Critical effects

	7440-62-2	Vanadium	0.5 mg/m ³ (inhalable fraction)	-	-

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Before wearing personal protective equipment becomes necessary, please observe the following technical measures:

- confine the working area to avoid indirect exposure of other workers not involved in the operations;
- when supervising any operation that can promote the release of dust or fibres, check that suitable air suction, ducting, and filtration systems are properly installed and operational;
- clean the work surfaces regularly (by vacuuming).

In case wearing personal protective equipment is made necessary, the type of equipment that can provide the appropriate protection is outlined below.

8.2.2. Individual protection measures, such as personal protective equipment (Dir. 98/24/EEC)	a) Eye/face protection	Use eye protection. Wear a full-face shield or mask.
	b) Skin protection	Use protective gloves. Avoid prolonged skin contact. Wear appropriate protective clothes to avoid any potential skin contact. Use special workwear.
	c) Respiratory protection	Use particle-filtering respiratory equipment (type P3).
	d) Thermal dangers	None
8.2.3. Environmental exposure controls	It is recommended that Legislative Decree 81/08, as amended, be implemented and, in particular, that workers' exposure be monitored (air quality monitoring) and, if required, that health surveillance be conducted.	

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties	Physical state	Solid
	Colour	White
	Odour	None

	Melting point/point of freezing	1710°C
	Boiling point	Not available
	Flammability	Not applicable
	Lower and upper explosive limit	Not applicable
	Flash point	Not applicable
	Autoignition temperature	Not applicable
	Decomposition temperature	Not applicable
	pH	Not applicable
	Kinematic viscosity	Not applicable
	Solubility	Not available
	N-Octanol/Water Partition Coefficient	Not applicable
	Vapour pressure	Not applicable
	Density and/or relative density	4.5 g/cm ³
	Relative vapour density	Not applicable
	Particle characteristics	Not applicable
9.2. Other information	None	

10. STABILITY AND REACTIVITY	
10.1. Reactivity	Non-reactive
10.2. Chemical stability	Stable under normal conditions
10.3. Possibility of hazardous reactions	Possible hydrogen formation upon contact with acids.
10.4. Conditions to avoid	Titanium is affected by hydrofluoric/nitric acid mixtures.
10.5. Incompatible materials	Can ignite in the presence of dry chlorine at room temperature; explosive reactions with red fuming nitric acid have been reported (not with normal concentrations): undergoes a termite-like reaction with iron oxide at elevated temperatures.
10.6. Hazardous decomposition products	No hazardous decomposition products known.

11. TOXICOLOGICAL INFORMATION	
11.1. Information on toxicological effects

13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Operate according to current national and local regulations. In Italy, operate according to Legislative Decree No. 152 of 3 April, 2006 "Environmental Regulations" and subsequent additions and amendments, pursuant to European directives on environmental protection. According to European Directive 2008/98/EC, waste does not require special supervision.

The waste producer is responsible for determining the toxicity and physical properties of the generated material to identify the appropriate waste classification and disposal methods, in compliance with current regulations.

14. TRANSPORT INFORMATION

No special precautions are required for transport.

Transport of dangerous goods by road/rail ADR/RID: Not applicable

IMDG sea Transport: Unclassified

Air transport ICAO-TI and IATA-DGR: Unclassified

14.1. UN Number

Not applicable

14.2. UN shipping name
